Addendum

Sustainable co-generation from the tides: bibliography

Roger H. Charlier *

Free University of Brussels (V.U.B.), 2 avenue du Congo, Brussels, Belgium B-1050

1. Publications pre-dating 1982

Ackers, P., 1978, Tidal power projects. Australia. In Severn, R.T., Dineley, D.L. & Hawker, L.E. (eds), Proc. 30th Symp. Colston Res. Soc., Bristol, The Colston Society.

Anonymous, 1966, Cheaper electricity by tidal power say the French, Sea Technology, 5, 22-27 (May 1966).

Anonymous, 1959, Proceedings of the All-China Conference on tidal power utilization, Shangai, Pamphlet Series Skuli-Y-Tien-Li.

Anonymous, 1981, China looks to tidal power, Electr. Rev. 3, 208.

Binnie & Partners, 1981, Severn tidal power — Alternative assessments of fuel savings; London, Department Of Energy, Rep. N̊ STP-85, Aug. 1981.

Campbell, A.B., Tidal power. Its promise and problems, Durham NH, Center for Industrialization and Institutional Development.

Daborn, G.R. (ed.), 1977, Funday tidal power and the environment, Wolfville NS, Acadia University (publication No. 28).

Daborn, G.R., 1982, Biological consequences of the Minas Basin tidal power proposal; Proc. Conf. New Approach. Tidal Power Bedford Inst. Oceanog. Dartmouth NS III, 2.

Debelius, C.A. and Whitwell,R.G., 1981, A preliminary assessment of Cook Inlet tidal power, Proc. 2nd Symp. Wave, Tidal, OTEC and Small Hydro Energy (BHRA), no pp. nb.
